EXPERIENCE, INTERNSHIP & TRAINING

Bibyte Robotronix, Indore July – September 2020 - Intern

- As an intern, I successfully completed the Flutter training and developed a solid grasp of flutter and dart with MVC architecture.
- Learned to implement features, such as Firebase integration and animations, by utilizing pre-built packages.
- Has experience creating fundamental Flutter apps and a solid grasp of core ideas including widgets, layouts, and state management.
- Proven capacity to pick up new ideas fast and perform well in a collaborative setting, supporting the successful completion of several projects.

What I have learned

- Skilled at utilizing Flutter to create mobile apps, with knowledge of how to use the Model-View-Controller (MVC) design pattern and manage state using the Provider package.
- Expert in creating forms and managing user input in Flutter apps, with knowledge of incorporating validation and error handling.
- Well-versed in the design and implementation of REST APIs, with experience integrating them into Flutter apps and making HTTP queries.
- Skilled at using native device features like the camera and map on Flutter programs to improve functionality and user experience. In Addition, Proficient in using all Firebase functions, such as real-time database access, authentication, and cloud storage.
- Experience with Android Studio and Visual Studio as integrated development environments (IDEs) for Flutter development. Knowledge of both iOS and Android design patterns and user experience (UX).
-

TECHNICAL PROFILE:

- **Operating Systems** : **Windows**
